## **DETAILED ACTION**

### **Information Disclosure Statement**

1. The information disclosure statements (IDS) submitted on 22 September 2006, 02 July 2009, 13 August 2010, and 16 March 2011 have been considered by the examiner.

### **Claim Objections**

2. Claims 5 and 6 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

### **Claim Rejections - 35 USC § 101**

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 1-4 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims read on a product of nature in that the claimed antibodies are not “isolated”. The claims encompass, for example, an antibody that has not been removed from the animal or human. In the absence of the hand of man, the naturally occurring products are considered non-statutory subject matter. See *Diamond v. Chakrabarty*, 447 U.S. 303, 206 USPQ 193 (1980). The claims should be amended to indicate the hand of the inventor, e.g., by insertion of “isolated” or “purified”. See MPEP 2105.

**Claim Rejections - 35 USC § 112, 2<sup>nd</sup> Paragraph**

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

7. Claims 1 and 2 are rejected as being indefinite for reciting the term “(447)”. It appears that “447” refers to a position within an amino acid sequence; however no reference sequence is defined in the claims. Given the variations of published sequences contained in the databases, it is unclear which amino acid positions are encompassed by the claims. Moreover, numbering is not an inherent property of a protein sequence. Accordingly, recitation of a number without reference to a specific sequence is indefinite, and therefore the metes and bounds of the claims cannot be determined.

8. Claim 3 is rejected as being indefinite for reciting the phrase, “corresponding to the subtype according to claim 1 or 2 has an amino acid sequence set forth in SEQ ID NO:1”. It is not clear if the native humanized PM-1 antibody comprises the amino acid sequence SEQ ID NO:1, or the subtype (1) or subtype (2) comprises the amino acid sequence SEQ ID NO:1. Therefore, the metes and bounds of the claim cannot be determined.

9. Claim 4 is rejected for depending from an indefinite claim.

**Summary**

10. No claim is allowed.
